JUST ONL WEEK.

Next Thursday, one week from to-day, the people of Shelby will be called upon to elect their county officers. Every Democrat, of course, is determined to do his duty to the county, to his family, to himself, and to the State, by failing not on any pretense whitever, to cast his vote for the nominees of the party. We believe that the election will be approached one, and all men, good and true, must do their ulmost so to make it. Let the contest be a fair and square one. It is not likely that our adversaries will provoke violence. Conscious of our strength and rectitude, we should likewise give them no cause for cavil or upwar. It is our duty to defeat the Radical combination, and that duty peaceful manner. As to the negroes, let them vote as they deem proper. and advised. They cannot plead invincible ignorance in the premises. And if they vote the Radical ticket, it is presumable they have made up their minds that their best interests lie in such a quarter. If any black or colored man desires to vote the Democratic ticket, he should be protected in his rights to do so. If a negro of his own accord likes to vote with us, we fully believe in the propriety of his being defended in so doing in spite of all molestation.

RADICAL VIOLENCE.

The people of Memphis will never forget Radical rule, the scenes that occurred while Curry was the Radical candidate for Sheriff.
